

For Massachusetts High School Health & PE Teachers

Before entering the drawing please read these requirements:

1. You are a Health and/or PE teacher at a Massachusetts high school.
2. You currently include health lessons in your classes.
3. Your school has not used our health lessons currently or previously.
4. Your school does not own a facial sun damage analyzer machine.

To enter the drawing go to melanomaeducation.net, click on the video of interest and, in the next window, enter your **school** email address. Because you are likely already in our database we will use your email address to identify you. If not, we will email you to get your school information.

Entries are limited to one teacher per school.

*The deadline for watching the two videos is March 6, 2020.
Winners will be drawn and notified on or before March 20.*

If you win, your principal will need to pre-approve receiving the machine. Your only other obligation will be to show the student video in your class(es) during the current school year. I encourage you to show the student video soon after watching the two videos yourself. Over 1000 teachers throughout the U.S. are using the free videos. They have saved lives of students, teachers, and their family members.

Please feel welcome to contact me with any questions by email or phone.
